3. PROBLEM SOLVING METHODS

Structured Problem Identification: We emphasise the importance of clearly identifying and defining problems through systematic analysis and stakeholder consultation. Our faculty encourages students to articulate challenges using qualitative and quantitative data, ensuring a comprehensive understanding of the issue at hand.

Interdisciplinary Approach: Recognizing the complex nature of contemporary challenges, we promote an interdisciplinary approach to problem-solving. By integrating knowledge from diverse fields such as commerce, economics, management, and technology, our students develop well-rounded perspectives and innovative solutions.

Innovative Solutions Development: Creativity is at the heart of our problem-solving methodology. Through brainstorming sessions, case studies, and project-based learning, students are encouraged to explore unconventional ideas and approaches. Our faculty mentors guide students in developing innovative solutions that address both immediate concerns and long-term sustainable development.
