(Affiliated to University of Mumbai)

1) Experiential Learning:

Experiential learning at Lilavati Lalji Dayal College of Commerce typically involves a structured approach to enhance students learning through practical experiences. We, Lilavati Lalji Dayal College of Commerce uses pedagogical approach where students actively engage in hands-on experiences that directly relate to their academic studies. The primary purpose is to deepen the understanding, fostering critical thinking and developing positive and practical skills that complement theoretical knowledge.

Internships: Lilavati Lalji Dayal College of Commerce emphasizes on internships and allowed students to get real time work experience by working in different CA Firms, industries, Stock Market operations and many more. This help the students to get practical insights and skills under guidance.

Project Based Learning: Students undertake various projects that requires them to research, analyse and present the findings. This method encourages the quality of team-work, problem solving techniques among the students. These projects often involves collaboration with local businesses or community organisations, allowing students to contribute to real world outcomes.

Case Study Analysis: Integrating case studies into the curriculum enables student to tackle real life business problems. They analyse and propose solutions to cases derived from actual business scenarios, fostering critical thinking and problem solving skills.

Workshops & Seminars: Regular workshops and seminars conducted by industry professionals and academic professionals provide students with insights into current industry trends and practices. These sessions often include interactive components that encourage and engage students actively.

Field Trips & Site Visits: Lilavati Lalji Dayal College of Commerce organised few industrial visits to different enterprises, financial institutions and other commercial establishments which gives students a chance to observe operations and business practices up close. These trips are often followed by reflective discussions to consolidate learning.

(Affiliated to University of Mumbai)

2) Participatory Learning:

Lilavati Lalji Dayal College of Commerce champions participatory learning as the core component of its educational philosophy. Recognizing the importance of active engagement and collaboration in the learning process. The college employs participatory methods to cultivate an inclusive and dynamic academic environment. This approach enhances the overall educational experiences for the students.

Collaborative Projects & Group Work: Lilavati Lalji Dayal College of Commerce encourages students to work in groups on projects and assignments. This collaborative approach fosters teamwork, allows students to share diverse perspectives, and promotes peer learning. Group work also helps students to develop interpersonal skills which are crucial for professional lives.

Interactive Classrooms: Classes at Lilavati Lalji Dayal College of Commerce are designed to be interactive with the focus on discussions, debates and problem solving activities. Instructors here facilitate rather than dictate, encourage students to explore and articulate their ideas.

Feedback Mechanism: Lilavati Lalji Dayal College of Commerce actively seeks feedback on courses, teaching methods and institutional policies from the students, teachers, parents and non-teaching staffs. This feedback ensures that students have a say in their educational journey and that their voices contribute to continuous improvement in the process.

Community Engagement & Service Learning: The college integrates community service and outreach programs into its curriculum. These initiatives require students to collaborate with community members and organizations, applying their learning to real world problems and gaining insights from diverse community perspectives.

3. Problem Solving Methodology

Sheth Lalji Dayal Amalgamated Trust's

Lilavati Lalji Dayal Night College of Commerce

(Affiliated to University of Mumbai)

3) Problem Solving Methodology:

At Lilavati Lalji Dayal College of Commerce, our approach to problem-solving is deeply ingrained in our commitment to academic excellence and holistic development of our students. Guided by our mission to nurture future leaders and innovators, our problem-solving methodology encompasses a structured framework designed to foster critical thinking, creativity, and effective decision-making among our students and faculty.

Structured Problem Identification: We emphasise the importance of clearly identifying and defining problems through systematic analysis and stakeholder consultation. Our faculty encourages students to articulate challenges using qualitative and quantitative data, ensuring a comprehensive understanding of the issue at hand.

Interdisciplinary Approach: Recognizing the complex nature of contemporary challenges, we promote an interdisciplinary approach to problem-solving. By integrating knowledge from diverse fields such as commerce, economics, management, and technology, our students develop well-rounded perspectives and innovative solutions.

Innovative Solutions Development: Creativity is at the heart of our problem-solving methodology. Through brainstorming sessions, case studies, and project-based learning, students are encouraged to explore unconventional ideas and approaches. Our faculty mentors guide students in developing innovative solutions that address both immediate concerns and long-term sustainable development.
