Library - Future Plans

- **Promote Library Usage:** Raise awareness among students to encourage frequent use of the library for reading, research, and academic enrichment.
- **Library Automation:** Implement a fully computerized library system with automation services to enhance future library operations and user experience.
- **Staff Training:** Provide training to library staff to improve their computer skills and operational proficiency, ensuring effective service delivery.
- **Access to Digital Resources:** Offer users access to various archives, websites, online databases, and digital networks to support research and learning activities.
- **Expand E-Book Collection:** Continuously enrich the library's e-book collection and make it easily accessible to users for digital reading and research.
- **Book Exhibitions:** Organize book exhibitions on special occasions to showcase diverse collections and promote reading among students and staff.

- **Library Memberships:** Acquire memberships with renowned national and international libraries to share and access a wider range of resources.
- **Academic Events:** Organize national and international seminars, workshops, and conferences to foster knowledge exchange and academic collaboration.
- **Utilize Open-Source Tools:** Use open-source tools and platforms for online education to provide students and faculty with easy access to high-quality educational resources.
